

# *baculo***XPRESS**<sup>®</sup> - Baculovirus Protein Expression Services from the Experts

Here at Oxford Expression Technologies we offer the complete range of contract services for baculovirus protein expression. As world opinion leaders in the field we use our 25 years of experience with the baculovirus system to make sure you get the **best possible yield and quality of recombinant protein**.

## What we do

- **Gene synthesis**—No plasmid? No problem! We can arrange the synthesis of any gene for you.
- **Cloning**—We can work with any plasmid you supply and advise on vector selection. This includes PCR cloning and working from cDNA.
- **Virus and protein production**—We'll make a recombinant virus for you and use it to produce protein to your requirements.
- **Optimisation**— We will develop a bespoke protocol to obtain the very best protein yield and quality for you.
- **Protein Purification**— We'll supply culture pellet, supernatant or provide a fully purified protein as required.

## What you get

- **Quality**— Proteins expressed in the patented *flashBAC*<sup>®</sup> system for optimal protein yields
- **Expertise**— Access to our multi-disciplinary team of scientists
- **Accountability** - Full written project report and regular updates.
- **Flexibility**—Range of services, which can be combined or purchased individually and tailored to your specific needs

## How can we help?

If you would like us to assist you with your protein production, please contact us for a discussion and a quote—our details are below.
